

# Guillermo Pérez Fuentes

## ✓ About

Full Stack Developer | MERN Stack | Bootstrap | Graphic Designer | Social Media | Tech Consultor

Hello, my name is Guillermo Pérez and I am a person very passionate about technology, who knows how to handle various fields, from software and apps, to consumer machines. Over time I have acquired a lot of facility to handle any device, correct errors, be decisive and pay attention to details. I adapt easily to any skill and learning, to grow personally and professionally

## ✓ Projects

### Weekifly

Plans platform, in which users recommend plans to do in your area or in other places and with the possibility of creating your own. The glider creates it, launches it and hopes that customers can enjoy their plan

Site link: <https://weekifly.netlify.app>

### Rankor

The Gamer's Ranking Social Network is a social network oriented to gamers. The user can search for a specific game and interact with another player that have the same taste in videogames. The ranking system wants to promote the player interaction after a successful play session.
